Sensitive medical goods requiring reliable handling and strict process control.

General Cargo

Flexible air freight solutions for standard commercial cargo.

Cold Chain Excellence

- ✓ Full temperature-controlled environment throughout the journey
- ✓ Real-time temperature monitoring and reporting
- ✓ Strict compliance with GDP and IATA standards
- ✓ Dedicated handling procedures from origin to destination

Airbus 321 Freighter Specification

PAG UNIT LOAD DEVICE CLASSIFICATION: PAG, PAA, PAJ, PAP

Dimensions

Length 318cm | 125in
Width 224cm | 88in
Height 163cm | 64in Top N/A
Nominal Capacity and Weight
Usable Volume 10.85m³ | 383ft³

AKH UNIT LOAD DEVICE CLASSIFICATION: AKH, LD3-45

Dimensions

Length 156cm | 61.5in
Width 153cm | 60.4in
Height 114cm | 45in Top 244cm | 96in
Nominal Capacity and Weight
Usable Volume 3.7m³ | 131ft³
Maximum Gross Weight 1588kg | 3500lbs

 **Max payload**
27 tons/208m³

Main deck

- 14 pos. 88" x 125" x 82" (AAY, PAG/PAJ)
- Max. height 82"
- Main Deck Cargo Door (MDCD) MDCD
- Structural Width 3733.8 mm (147 in)
- Width between entrance guides 3510.8 mm (138.2 in)
- Clear Height 2152.7 mm (84.8 in)

Lower deck

- 10 pos. 60" x 61" x 45" (AKH, PKC)
- Max. height 45"
- Forward- and Aft compartment door: (H x W): 46" x 71"
- Compartment 5: Loose cargo only
- Bulk compartment door (H x W): 30" x 36"

Loading height

- Main deck: Max. 82"
- Lower deck: Max. 45"

Cargo capacity

- 27000 kg (61,729 lbs) / 208 m³
